

## .22 Rimfire open sight rifle and sport handgun

Our first .22 open sight and sport handgun was held on Saturday 31 January. It was good to see some of our practical pistol shooters mainly Johan and Fanie Otto join in the fun, the only problem is they really know their way around a handgun. Johan won the event quite convincingly.

We also have changed our visitor fees for people who attend organised club champs, this allowed two co-students with Johan to participate with us, they also shot in the air gun competitions. They enjoyed the shoots and learnt it is not as easy as Johan makes it look.

The scores for the sport handgun and the open sight rifle were as follows:
